Driving the transition to a net zero economy

Opening Supers: Driving the transition to a net zero economy

[Visual of Prof. Myles Allen]

Speaker VO: You won't be able to sell products that cause climate change in a net zero world.

Super: Leading with sustainable financing solutions

[Visual of Josh Tetrick]

Speaker VO: We want to build a food system you don't need to slaughter an animal, you don't need to tear down a tree, you don't need to use antibiotics to feed our families...

Super: Unlocking next generation climate solutions

[Visual of Eric/Panel in Hong Kong]

Speaker VO: To create the world's first return-on-happiness index to measure the impact that we create for the world.

Super: Solving societal challenges for tomorrow's communities

[Visual of Siew Meng Tang]

Speaker VO: A green transition cannot be achieved alone.

Closing Supers:
Create a ripple of change
Be part of tomorrow's unstoppable wave
